

### **REMARKS**

Applicants thank the Examiner for the thorough consideration given the present application. Claims 1-8 are currently being prosecuted. The Examiner is respectfully requested to reconsider his rejections in view of the amendments and remarks as set forth below.

#### **Allowable Subject Matter**

It is gratefully acknowledged that the Examiner considers the subject matter of claims 1-8 as being allowable if rewritten to overcome the 35 U.S.C. § 112 second paragraph rejection. Although not conceding the appropriateness of the Examiner's rejections, the claims have been amended to overcome this rejection. Accordingly, claims 1-8 are now in condition for allowance.

#### **Rejection under 35 U.S.C. § 112**

The Examiner points out that the claims are indefinite due to language problems. By way of the present amendment, Applicants have amended claims 1, 2, 4, 5 and 6 to overcome these problems. In regard to claim 1, line 4, Applicants have followed the Examiner's suggestion of removing the phrase "adjoining with the first space" and have instead inserted the phrase suggested by the Examiner. The remaining problems deal with the presence of two bases, one of which is the base for the input device and the other of which is a base for the buckling portion. By way of the present amendment, Applicants have now specified these two bases as a first base and second base. In addition, in claim 1 the first base has been identified as being "of said input device" and the second base is identified as being "of said buckling portion". In view of this amendment, Applicants submit that there is no ambiguity as to the base being referred to.

### Conclusion

In view of the above remarks, it is believed that the claims are now definite. Accordingly, reconsideration of the rejection and allowance of all the claims are respectfully requested.

Dated: **November 1, 2006**

Respectfully submitted,

By
